San Jose:

The San Jose Police Department has arrested four suspects and booked them into Santa Clara County Jail on multiple counts of robbery.

Over the last year, the Bay-Area has seen a dramatic increase in Chain-Snatch robberies. The suspects targeted women of all ages, often of South-Asian descent. The victims were conducting everyday activities such as shopping or taking walks when a male would approach and rip gold jewelry from their necks. If the victim resisted, the suspect frequently struck and punched the victim until they could complete the robbery. A firearm was brandished in several of the incidents. After the robbery, the suspect would flee in a waiting vehicle.

Strong Arm Robbery - YouTube

[Watch now...](#)

These robberies not only caused the victims shock and lingering fear due to the violent attack; but the victims oftentimes lost property of significant cultural, religious, and personal value. The manner in which this jewelry was later disposed of created an inability to ever recover the property and reunite it with the victim.

San Jose Police Robbery Detectives partnered with the Sunnyvale DPS, Santa Clara Police Department, and the Milpitas Police Department who were experiencing robberies with similar methods of operation. Detectives conducted an exhaustive investigation and learned the suspects oftentimes stalked the victim before the attack. With the cooperation of witnesses and examination videos from businesses, Detectives identified the four suspects listed above as taking part.

Detectives are continuing the investigation to identify additional suspects. Several search warrants were executed which garnered evidence of these suspects being responsible for numerous robberies. However; the Robbery Unit knows there are other robberies that have occurred but have gone unreported. We are seeking the public's help in locating victims. In addition, we are looking for the owner of this particular piece of jewelry. We believe it was stolen in East San Jose sometime in late November.

Sergeant Larry Day of the San Jose Police Department Robbery Unit wanted to thank the detectives from Sunnyvale, Santa Clara and Milpitas Police Departments stating Crime knows no boundaries and neither should we. Having a great relationship with these other Departments allows us to investigate these crimes, identify victims, and successfully prosecute the persons responsible even with reduced staffing.

Persons with information regarding the above case are urged to contact Detective Drago or Detective Zanotto of the San Jose Police Department's Robbery Unit at (408) 277-4166. Persons wishing to remain anonymous may either call the Crime Stoppers Tip Line, (408) 947-STOP (7867), or click the "Submit a Tip" link below. Persons providing information leading to the arrest and conviction of the suspect may be eligible for a cash reward from the Silicon Valley Crime Stoppers.

2014 Fantasy Flight Press Release

On Saturday, 12/13/14, The Cops Care Cancer Foundation will host their annual **Christmas Fantasy Flight** event. Approximately 150 kids from 55 Bay Area families will attend the event this year. Fantasy Flight is a powerful and fun event for Bay Area families that have a child stricken with cancer. The event provides a fun atmosphere where each child and their family are treated to a fun filled day in our version of the North Pole. In addition to all of the carnival games, jumper houses, food and guests, Santa Claus arrives by police helicopter to deliver a specific toy for **every** child. We also provide financial assistance to each family to help with the added expense of the holiday season. Police Officers & Fire Fighters from San Jose, Fremont, Sunnyvale, Palo Alto, San Francisco and the CHP will be participating.

The families will arrive at Juniper Networks in Sunnyvale where they will load up into police vehicles, limos, military trucks, luxury busses and fire trucks. Police motorcycles from all of the participating agencies will then lead this special motorcade to the SJPD Air Hangar at the Mineta San Jose International Airport. The kids and their families will enter the air hangar which has been magically transformed into the North Pole. The kids will enjoy all of the festivities until Santa Arrives by police helicopter to deliver gifts to every child. These aren't just any gifts either. The Cops Care Cancer Foundations staff does their homework and finds out exactly what each child has asked Santa for. Magically those gifts are under the tree waiting for them. Each family will also receive financial assistance to provide their own celebration on Christmas day.

Details:

Staging location for the motorcade: Juniper Networks, Aspiration Dome. (5th/Mathilda in Sunnyvale.) Signs will guide you in.

Staging time: Kids check in at Juniper at 10:30Am and the motorcade leaves promptly at 11:30am to make its way to the hangar.

2014 Fantasy Flight Press Release

On Saturday, 12/13/14, The Cops Care Cancer Foundation will host their annual **Christmas Fantasy Flight** event. Approximately 150 kids from 55 Bay Area families will attend the event this year. Fantasy Flight is a powerful and fun event for Bay Area families that have a child stricken with cancer. The event provides a fun atmosphere where each child and their family are treated to a fun filled day in our version of the North Pole. In addition to all of the carnival games, jumper houses, food and guests, Santa Claus arrives by police helicopter to deliver a specific toy for **every** child. We also provide financial assistance to each family to help with the added expense of the holiday season. Police Officers & Fire Fighters from San Jose, Fremont, Sunnyvale, Palo Alto, San Francisco and the CHP will be participating.

The families will arrive at Juniper Networks in Sunnyvale where they will load up into police vehicles, limos, military trucks, luxury busses and fire trucks. Police motorcycles from all of the participating agencies will then lead this special motorcade to the SJPD Air Hangar at the Mineta San Jose International Airport. The kids and their families will enter the air hangar which has been magically transformed into the North Pole. The kids will enjoy all of the festivities until Santa Arrives by police helicopter to deliver gifts to every child. These aren't just any gifts either. The Cops Care Cancer Foundations staff does their homework and finds out exactly what each child has asked Santa for. Magically those gifts are under the tree waiting for them. Each family will also receive financial assistance to provide their own celebration on Christmas day.

Details:

Staging location for the motorcade: Juniper Networks, Aspiration Dome. (5th/Mathilda in Sunnyvale.) Signs will guide you in.

Staging time: Kids check in at Juniper at 10:30Am and the motorcade leaves promptly at 11:30am to make its way to the hangar.

Event Location: 1455 Airport Blvd. SJPD Air Hangar at Mineta San Jose International Airport (Lots of signs guiding you in)

SJPD Unmanned Aerial System Technology - Information and Scheduled Public Outreach

Filed under *Press Release*, on 12/1/2014 8:27:00 AM by Author: Sergeant Heather Randol #3528.

SJPD Unmanned Aerial System Technology The San Jose Police Department (SJPD) is exploring the possibility of using Unmanned Aerial System (UAS) technology, commonly referred to as a drone, in a limited scope.

About the UAS

Earlier in 2014, the Police Department obtained one UAS, specifically for the SJPD Bomb Unit. The UAS is a Century NEO 660 Hex-Rotor which has a Go-Pro camera for aerial video footage. The UAS is 3 feet wide and 1.5 feet tall.

If and when policies and procedures are drafted and finalized, the SJPD would ensure the UAS usage would be compliant with FAA regulations, federal and state law. The SJPD would also obtain a Certificate of Authorization (COA) from the FAA prior to using the UAS.

The SJPD is not using the UAS currently.

Neighborhoods Commission Meeting, Nov. 13, 2014

The SJPD made a presentation to the Neighborhoods Commission about the UAS on Wednesday, Nov. 13, 2014. The purpose of the discussion was to seek input from the commissioners about whether UAS technology is appropriate for police to utilize in San Jose as well as to ask for the commission's assistance with community outreach.

View the PowerPoint presentation: http://www.sjpd.org/BFO/images/uas_neighborhoods_commission.pdf

Upcoming Community Outreach Meetings

The Neighborhoods Commission is hosting a Community Outreach Meeting from **10:00 a.m. to 12:00 p.m. on Saturday, Dec. 6, 2014** at San Jose City Hall, 200 East Santa Clara Street, in the Wing, Committee Room 120.

Police will give a presentation about the UAS and proposed uses, followed by a question and answer period with the public.

Details about additional community outreach meetings to be held in early 2015 are coming soon.

San Jose Police Sobriety and Driver's License Checkpoint, Friday, November 21, 2014

San Jose Police Department Targets Impaired Drivers With Sobriety/Driver License Checkpoint

San Jose, California
Friday, November 21, 2014

8:00 PM to 2:00 AM

San Jose, CA -- San Jose Police Department Traffic Unit will be conducting a DUI/Drivers License Checkpoint on Friday, November 21, 2014 at an undisclosed location within the city limit between the hours of 8:00 pm to 2:00 am.

The deterrent effect of DUI checkpoints is a proven resource in reducing the number of persons killed and injured in alcohol or drug involved crashes. Research shows that crashes involving an impaired driver can be reduced by up to 20 percent when well-publicized DUI checkpoints and proactive DUI patrols are conducted routinely.

In California, this deadly crime led to 802 deaths in 2012 because someone failed to designate a sober driver. Nationally, the latest data shows nearly 10,000 were killed by an impaired driver. Over the course of the past three years, DUI collisions have claimed 8 lives and resulted in injury crashes harming 462 of our friends and neighbors, said Sgt Steve Payne.

Officers will be looking for signs of alcohol and/or drug impairment with officers checking drivers for proper licensing delaying motorists only momentarily. When possible, specially trained officers will be available to evaluate those suspected of drug-impaired driving. Recent statistics reveal that 30 percent of drivers in fatal crashes had one or more drugs in their systems. A study of active drivers showed more tested positive for drugs that may impair driving (14 percent) than did for alcohol (7.3 percent). Of the drugs, marijuana was most prevalent, at 7.4 percent, slightly more than alcohol.

According to the National Highway Traffic Safety Administration (NHTSA), checkpoints have provided the most effective documented results of any of the DUI enforcement strategies, while also yielding considerable cost savings of \$6 for every \$1 spent. Nearly 90 percent of California drivers approve of DUI checkpoints.

DUI Checkpoints are placed in locations based on collision statistics and frequency of DUI arrests affording the greatest opportunity for achieving drunk and drugged driving deterrence. Locations are chosen with safety considerations for the officers and the public.

Drivers caught driving impaired can expect the impact of a DUI arrest to include jail time, fines, fees, DUI classes, other expenses

that can exceed \$10,000 not to mention the embarrassment when friends and family find out.

Funding for this checkpoint is provided to San Jose Police Department by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration, reminding everyone to Report Drunk Driver Call 9-1-1.

MEDIA NOTES: To schedule an interview regarding the San Jose Traffic Safety Operations, please contact Sgt. Steve Payne at (408) 277-4341 or via email 2805@sanjoseca.gov

The Gun Buy Back Program provides local residents an opportunity to voluntarily turn in firearms in exchange for gift cards. The 2014 SJPD Gun Buy Back Program will be held on Saturday, December 13, at the San Jose Police Activities League, (PAL) Stadium located at 680 S. 34th Street in San Jose from 9 - 1p.m.

San Jose Police Receive Grant for Special Traffic Enforcement and Crash Prevention

Filed under *Press Release*, on 11/7/2014 7:42:00 AM by Author: Albert Morales #3477.

PRESS RELEASE

FOR IMMEDIATE RELEASE:

Date: November 7, 2014

SAN JOSE POLICE DEPARTMENT RECEIVES GRANT FOR SPECIAL TRAFFIC ENFORCEMENT AND CRASH PREVENTION

The San Jose Police Department has been awarded a \$350,000 grant from the California Office of Traffic Safety (OTS) for a year-long program of special enforcements and public awareness efforts to prevent traffic related deaths and injuries. The San Jose Police Department will use the funding as part of the city's ongoing commitment to keep our roadways safe and improve the quality of life through both enforcement and education.

"I want to thank the California Office of Traffic Safety for making these grants available and assisting in our efforts to help keep our San Jose roadways safe.", said San Jose Police Chief Larry Esquivel.

After falling dramatically between 2006 and 2010, the number of persons killed and injured in traffic collisions saw slight increases in 2011 and 2012. Particularly worrisome are recent increases in pedestrian and motorcycle fatalities and the dangers of distracting technologies. This grant funding will provide opportunities to combat these and other devastating problems such as drunk and drugged driving and speeding.

California's roadways are still among the safest in the nation, said OTS Director Rhonda Craft. But to meet future mobility, safety, and sustainability objectives, we must create safer roadways for all users. The San Jose Police Department will be using these and other resources to reach the vision we all share Toward zero deaths, every 1 counts.

Activities that the grant will fund include:

- * Educational presentations
- * DUI checkpoints
- * DUI saturation patrols
- * Motorcycle safety enforcement
- * Distracted driving enforcement
- * Seat belt and child safety seat enforcement
- * Speed, red light, and stop sign enforcement
- * Compilation of DUI Hot Sheets, identifying worst-of-the-worst DUI offenders

* Specialized DUI and drugged driving training such as Standardized Field Sobriety Testing (SFST), Advanced Roadside Impaired Driving Enforcement (ARIDE), and Drug Recognition Evaluator (DRE)

Funding for this program is from the California Office of Traffic Safety through the National Highway Traffic Safety Administration.

San Jose:

On the above date and time, the Police Department/Fire Department were dispatched to a person shot at the above location. Upon arrival, officers located an adult male suffering from at least one gunshot wound. The victim, later identified as Richard Watkins, was pronounced deceased at the scene.

Preliminary investigations revealed that a relative of the victim came to the area to visit the victim and his family on Azucar Ave. While looking for a parking spot on the street, the suspect (s) confronted the relative while driving his car and shot at him. The relative driving his car avoided being struck by the gun fire, but one of the stray bullets struck the victim who was standing in front of his home waiting for his relative to park his vehicle. The suspect(s) fled on foot and were not located.

Based on our investigation, at no time did the victim or relative driving his vehicle provoke the suspects to shoot into his vehicle. The relative and victim are not part of any criminal street gangs.

San Jose Police are continuing to conduct follow up investigation and actively looking for the outstanding suspect(s). At this point we are still determining whether or not it was gang motivated.

San Jose Police Sobriety and Driver's License Checkpoint, Friday, September 19, 2014

Filed under *Press Release*, on 9/18/2014 8:32:00 AM by Author: Albert Morales #3477.

San Jose Police Department Targets Impaired Drivers With Sobriety/Driver License Checkpoint

San Jose, California
Friday, September 19, 2014

7:00 PM to 1:00 AM

San Jose, CA -- San Jose Police Department Traffic Unit will be conducting a DUI/Drivers License Checkpoint on Friday, September 19, 2014 at an undisclosed location within the city limit between the hours of 7:00 pm to 1:00 am.

The deterrent effect of DUI checkpoints is a proven resource in reducing the number of persons killed and injured in alcohol or drug involved crashes. Research shows that crashes involving alcohol drop by an average of 20 percent when well-publicized checkpoints are conducted often enough.

Officers will be contacting drivers passing through the checkpoint for signs of alcohol and/or drug impairment. Officers will also check drivers for proper licensing and will strive to delay motorists only momentarily. When possible, specially trained officers will be available to evaluate those suspected of drug-impaired driving. Drivers caught driving impaired can expect jail, license suspension, and insurance increases, as well as fines, fees, DUI classes, other expenses that can exceed \$10,000.

In 2010, over 10,000 people were killed nationally in motor vehicle traffic crashes that involved at least one driver or motorcycle rider with a blood alcohol concentration (BAC) of .08% or higher. In California, this deadly crime led to 791 deaths because someone failed to designate a sober driver. "Over the course of the past three years in San Jose, DUI collisions have claimed 32 lives and resulted in 1641 injury crashes harming 531 of our friends and neighbors," said Sgt. Steve Payne.

According to the National Highway Traffic Safety Administration (NHTSA), checkpoints have provided the most effective documented results of any of the DUI enforcement strategies, while also yielding considerable cost savings of \$6 for every \$1 spent. Based on collision statistics and frequency of DUI arrests, DUI Checkpoints are placed in locations that have the greatest opportunity for achieving drunk and drugged driving deterrence. Locations are chosen with safety considerations for the officers and the public.

"DUI Checkpoints have been an essential part of the phenomenal reduction in DUI deaths that we witnessed since 2006 in California," said Christopher J. Murphy, Director of the Office of Traffic Safety. "But since the tragedy of DUI accounts for nearly one

third of traffic fatalities, San Jose needs the high visibility enforcement and public awareness that checkpoints provide."

Funding for this checkpoint is provided to the San Jose Police Department by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration, reminding everyone to continue to work together to bring an end to these tragedies. If you see a Drunk Driver -- Call 9-1-1.

Arrest Made in String off Burglaries that Occurred September 12, 2014

San Jose:

On September 12, 2014, there were eleven (11) burglaries reported in District Paul which is located near the Evergreen Area of East San Jose. In all of the cases, patrol units and/or Community Service Officers (CSO) responded and conducted an investigation.

One of the cases, citizens reported suspicious activity and patrol officers were able to locate and arrest two (2) suspects. Without the citizens' assistance, officers may not have located the suspects.

As staffing and call volume allows, patrol units (especially those assigned to dayshift) try to be visible in the areas where burglaries are occurring. When a burglary is reported, a patrol officer or CSO responds to conduct an investigation. In three (3) of the eleven (11) cases, a CSO was able to obtain latent fingerprints, which may ultimately lead to the identification of a suspect in the crime. The investigation is active and on-going and we will provide additional information as it becomes available.

The most important element of burglary suppression is citizen involvement. Citizens need to be encouraged to look after their neighbors and to report suspicious activity.

Originally known as San Jose de Guadalupe, San Jose was ruled by Mexico until 1848, when, after the Mexican-American War, California joined the United States of America. In 1849, the newly elected government appointed a chief of police, and the San Jose Police Department was born. Its mission has been to respond to the distinctive needs of the community from the early agricultural age to today's high technology age. The San Jose Police Department has been a leader in law enforcement technology and training and is considered a model for modern police departments. Today, with a thousand sworn officers and 200 support personnel, the San Jose Police Department serves over a million citizens in the city and polices an area of over 180 square miles. San Jose Police Sobriety and Driver's License Checkpoint, Friday, September 12, 2014

San Jose Police Department Targets Impaired Drivers With Sobriety/Driver License Checkpoint

**San Jose, California
Friday, September 12, 2014**

7:00 PM to 1:00 AM

San Jose, CA -- San Jose Police Department Traffic Unit will be conducting a DUI/Drivers License Checkpoint on Friday, September 12, 2014 at an undisclosed location within the city limit between the hours of 7:00 pm to 1:00 am.

The deterrent effect of DUI checkpoints is a proven resource in reducing the number of persons killed and injured in alcohol or drug involved crashes. Research shows that crashes involving alcohol drop by an average of 20 percent when well-publicized checkpoints are conducted often enough.

Officers will be contacting drivers passing through the checkpoint for signs of alcohol and/or drug impairment. Officers will also check drivers for proper licensing and will strive to delay motorists only momentarily. When possible, specially trained officers will be available to evaluate those suspected of drug-impaired driving. Drivers caught driving impaired can expect jail, license suspension, and insurance increases, as well as fines, fees, DUI classes, other expenses that can exceed \$10,000.

In 2010, over 10,000 people were killed nationally in motor vehicle traffic crashes that involved at least one driver or motorcycle rider with a blood alcohol concentration (BAC) of .08% or higher. In California, this deadly crime led to 791 deaths because someone failed to designate a sober driver. "Over the course of the past three years in San Jose, DUI collisions have claimed 32 lives and resulted in 1641 injury crashes harming 531 of our friends and neighbors," said Sgt. Steve Payne.

According to the National Highway Traffic Safety Administration (NHTSA), checkpoints have provided the most effective documented results of any of the DUI enforcement strategies, while also yielding considerable cost savings of \$6 for every \$1 spent. Based on collision statistics and frequency of DUI arrests, DUI Checkpoints are placed in locations that have the greatest opportunity for achieving drunk and drugged driving deterrence. Locations are chosen with safety considerations for the officers and the public.

"DUI Checkpoints have been an essential part of the phenomenal reduction in DUI deaths that we witnessed since 2006 in California," said Christopher J. Murphy, Director of the Office of Traffic Safety. "But since the tragedy of DUI accounts for nearly one

third of traffic fatalities, San Jose needs the high visibility enforcement and public awareness that checkpoints provide."

Funding for this checkpoint is provided to the San Jose Police Department by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration, reminding everyone to continue to work together to bring an end to these tragedies. If you see a Drunk Driver -- Call 9-1-1.

Community Service Officer Program

Filed under *Press Release*, on 9/2/2014 11:31:00 AM by Author: Sergeant Heather Randol #3528.

San Jose Police Department Community Service Officer Program

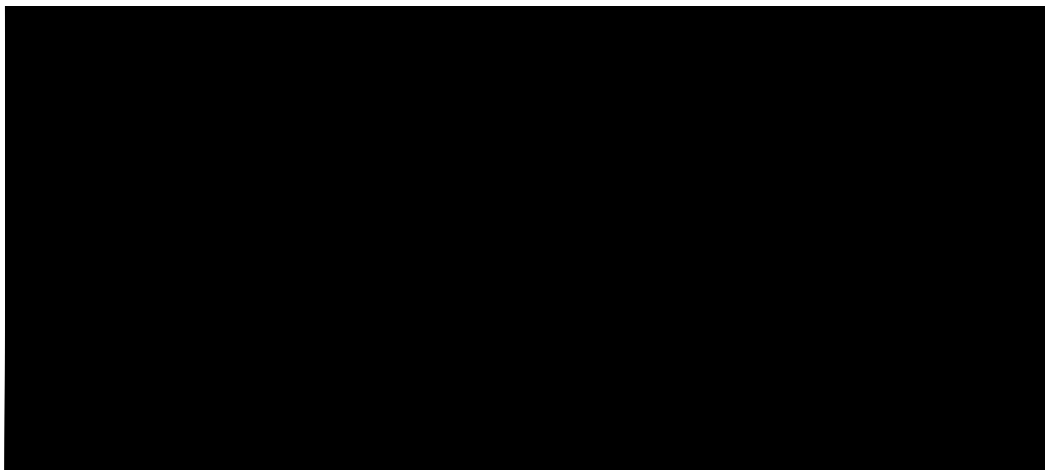

The Community Service Officer is a new civilian position in the San Jose Police Department. Numerous cities nationwide have utilized Community Service Officers within their Police Departments for many years. In 2010, the City Auditor recommended the Police Department create the position as part of a Civilianization Audit.

The Community Service Officers will be deployed in the field to assist police officers by responding to and investigating lower priority calls for service, so police officers will be available to respond to higher priority emergency calls for service and have more time for proactive enforcement. The Community Service Officers will not perform any enforcement duties, such as issuing traffic or parking citations, towing abandoned vehicles or making arrests. The types of calls the Community Service Officers will respond to and investigate include:

- Burglary commercial, residential, vehicle
- Petty theft
- Grand theft
- Vehicle theft initial report and/or recovery
- Vandalism
- Non-injury traffic collisions
- Missing persons
- Road Hazards
- Directs and controls crowds and traffic at accidents or special events including setting up cone and/or road flare patterns

The following video provides an overview of the Community Service Officer Program:
